

Smarten-Up your city
with citizen
engagement platform

Civita App is a crowdsourcing application that is a perfect solution for engaging citizens in the city development. It is a unique branded app, accessible as a Mobile or Web App to citizens and the public.

Citizens report issues using automatic geolocation or by pinpointing the location for better precision.

A Complete Solution

To Engage Citizens &

Community Members

Why Civita App is a unique Citizen Engagement Application?

Civita App is allowing the public to view reported issues, comment and propose solutions to problems, makes citizens feel more involved in the decision-making process of the city they live in.

Both city leaders & community coordinator can track the progress and status of reported issues using charts and graphs in the web interface.

From building a complete mobile [civic engagement application](#) to implementing IoT Bluetooth beacons, the Civita App platform makes it easy to launch a mobile app that keeps locals engaged.
