ENGAGE AND GROW YOUR BUSINESS WITH A COMPLETE CRM

- Why you should be using GreenRope:**
- Unlimited User-Defined Fields & Custom Objects
 - Lead Scoring
 - Instant Feedback from Email, Mobile, and More
 - Built-in IMAP Email Integration
 - Phone Integration

1 Sales Pipeline Management System

Track your leads from start to finish with our sales pipeline graphics and manager. Manage opportunities in a simple drag-and-drop interface, and customize the CRM to track exactly how you sell.

2 Contacts Research

Free instant data appending with the click of a button. Our interface with our data providers makes it easy for you to take existing contact and company data and fill in the blanks with up-to-date, accurate information.

3 Marketing Automation

Your CRM works directly with tools to save you time and ties in to your storefront, analytics, forms, and more. All automated workflows have realtime access to CRM data and can incorporate any rules you can imagine. We even work with Zapier to make it easy for you to access third party software.

4 Workflow Management

Set up sequences that assign activities to contacts and send emails automatically. Workflows can send alerts, change CRM data, send emails, SMS messages, and even requests to off-network services.

5 Document Signing

Manage electronic signatures and build them into your workflows, making it a snap to generate proposals, collaborate on agreements, and execute contracts.

6 Predictive Analytics

See what causes your contacts to purchase from you and predict who is likely to take action next. By combining demographic and activity data, you can easily see at a glance who your hottest leads are.
