

SALES SOFTWARE THAT IS FEATURE RICH

Sales is more than just a numbers game. GreenRope's sales tools help you develop stronger relationships with your leads and clients and most importantly, close more deals. With full contact management, pipeline visibility, opportunity tracking, detailed reports, and predictive analytics, GreenRope gives a 360° view of the customer to help you better qualify and convert leads into long-time customers.

Why you should be using GreenRope's Sales:

- Close more deals
- Keep the focus on your customer
- Get more leads
- Be more productive
- Make informed and quick decisions

KEY SALES FEATURES

1 Complete CRM

Engage & Grow Your Business

GreenRope is your one-stop shop for managing your relationships from awareness to conversion. With all your data available in one place, you always have an accurate, up-to-date 360-degree view of your contacts and your business.

2 Workflow Manager

Automate Your Sales Process With Workflows

A Workflow is a series of activities that help make you more efficient and provide the lead and/or customer with a consistent brand experience. Make sure no lead or task slips through the cracks.

3 CRM Activities

Help Your Sales Team Stay Organized

CRM Activities are a fantastic way to remind members of your team to perform specific activities like follow ups, product demos, sending contracts, and more.

4 Sales Opportunities

Stay On Top Of Your Leads & Increase Your Sales

The Opportunities portion of the CRM empowers salespeople to forecast deals, set custom phases, and track each sales with customizable funnels, graphs, and reports.

5 Sales Analytics

All The Information You Want, Anytime You Need It.

Measure the effectiveness of your sales efforts with highly detailed and customizable reports. Find out who your best leads are, keep an eye on trends, and find out how to best target your audience for maximum conversions.

6 Predictive Analytics

Become The Gold Standard Of Business Intelligence With Predictive Analytics

A predictive analytics tool is built directly into every GreenRope account, so you can use customer data to deepen relationships and focus on the leads most likely to convert.
