CD1150/4GGK

PHOENIX CD SERIES CLEAN & DIRTY LOCKERS are the ideal solution for many work environments where the need to store clean and dirty work wear separately is required.

- **CONFIGURATION** – Single door 30 or 50 cm wide, with central divider to separate clean from dirty clothes + top and bottom shelves for convenient storage.
- **SYSTEM** – Modular system allows for the lockers to be bolted together to form a block.
- **INTERNAL FITTINGS** – Supplied with a fixed top and bottom shelf, hanging rail and a coat hook. Full depth lockers able to accommodate coats and overalls on standard coat hangers.
- **LOCKING** – Standard Key lock, Mechanical 4 wheel combination lock or electronic lock with Private and Public function. For full details on locking options, see reverse of this leaflet.
- **CONSTRUCTION** – Fixed welded frame design, added to high quality fixings, make for an extremely sturdy durable locker. Doors can be fitted right or left hand opening.
- **SPECIAL FEATURES** – Each unit is ventilated with vents located in both the door and back wall.
- **ASSEMBLY** – Lockers are supplied as a flat pack with easy to assemble fixed frame design. Single unit can be built in less than 10 minutes.
- **COLOUR** – CD1130 available in a high quality powder coated grey paint (RAL7035) with the option of striking red (RAL3000) or blue (RAL5015) doors, that add a splash of colour to your workspace/ Changing area. CD1150 available in a high quality powder coated grey paint (RAL7035).

KEY LOCKING

Easy to use high quality key lock with up to 2000 combination differs.

- 2 keys supplied with each key lock

COMBINATION LOCKING

Designed with simplicity in mind, the KLIO offers mechanical keyless access. Private function only.

- Locked and unlocked indicators
- 4-wheel code combination
- Up to 10,000 unique combinations
- Black powder coated finish
- Private function only
- Easy grip outer casing
- Code retrieval function
- Master key available (sold separately)

ELECTRONIC LOCKING

Designed with simplicity and functionality in mind, the Nano90 offers sophisticated electronic keyless access with private and public functionality.

- 12 button keypad
- Low Battery Warning and Battery Override
- Easy programming of all features
- Standard setting of Master+ User code
- Private / Public Function available
- Up to 100,000 operations from 1 x coin cell battery
- Four code levels available -Master, Sub Master User and Technician

Private Function

This function is used where the same code will be repeatedly used, e.g. an employee with their own locker in the workplace. Changing or resetting the code can be completed easily whilst the lock is still on the door, or if the code has been forgotten it can be retrieved using the master key (sold separately - combination only).

Public Function

In this setting the lock operates with a single User Code. The user enters a personal four-digit code. This locks the lock. The same code is entered once only to open the lock before automatically being erased and ready for the next user. This function is used for short-term, multiple occupancy applications, e.g. a locker in a Gym/Sports club or work place that is used by multiple people.
