What are Xanax bars prescribed for?

[Xanax bars](#) have been a well-known medication since 1981 in the USA for the treatment of anxiety and panic attacks. However, the doctor may sometimes direct this medication for the management of insomnia and nausea due to chemotherapy. This medication results in short-term anxiety and is highly effective and favorable only if you use it under precautions and general warnings.

NOTE: The FDA doesn't support Xanax pills for other treatments instead of anxiety and panic attacks. Therefore, use this medication for second-line (off-label) after the doctor's consent. In case if you take the Xanax 2mg or any strength for other non-medical objectives such as getting high for its euphoric properties, you are prone to meet the adverse effects.
