The image shows a promotional banner for Medsshop Pharma. It features the company logo in the top left corner, which consists of a stylized cross with green and pink leaves. The background of the banner is a photograph of a tree branch with green and orange leaves against a bright sky. The text is overlaid on the image in a clean, sans-serif font.

Anxiety is quite common nowadays, and everyone goes through it at some time or other. But when the feeling of anxiety like fear for small matters, restlessness, etc., goes out of hand and, as a result, starts affecting our everyday lives, it can cause worry. For relieving anxiety, you can [buy Ativan online](#) easily.

Let us know more about Ativan uses, side effects, and more.

What is Ativan used for in adults?

Basically, Ativan is anxiety treating medication. Its generic name is Lorazepam and comes under the benzodiazepines class of drugs. These drugs work on the brain, enhancing neurotransmitters' efficiency that help calm the mind.

Ativan helps in treating anxiety disorders, insomnia and sometimes can even be used for withdrawal symptoms after alcohol.

Is Ativan a narcotic?

Though Ativan is legal to use in the US, it is a narcotic. In addition, Ativan comes under the schedule IV narcotic. Therefore, it is necessary to buy Lorazepam only after getting a prescription, and therefore, you cannot [buy Ativan online legally](#) without a prescription,

Is Ativan addictive?

Ativan is addictive only if you use it wrong. Lorazepam is one of the strong benzodiazepines which can be addictive. But taking a low dose for a short duration will not make you addicted to it. Take the recommended amount by a doctor and limit the dosage to that. If you overdose or consume more than the prescribed time, it may become addictive.

How does Ativan make you feel the next day?

Ativan, used to treat anxiety, helps you feel calm. It starts working in around 15-20 minutes. But it may cause some side effects the next day. You may feel symptoms like dizziness or drowsiness the next day. Some other effects are: loss of appetite, weakness or headaches. However, Sometimes there may be some serious side effects which you should tell your doctor right away. Symptoms like:

- Slow breathing
- Excitement
- Restlessness
- Hallucinations
- Suicidal thoughts
- Problem in sleeping

Note: If you miss any dose, then do not double your next dose to compensate for it. If it's still time for the next dose, only then consume your dose. Otherwise, skip the dose you were unable to consume. Also, you can [buy Ativan 1mg](#) online or [buy Ativan overnight](#) in case you want it soon.

What should be the max dose of ativan in 24 hours?

Although, the usual dosage for anxiety in adults is 2 to 6 mg/day. But the dosage may be increased to 10 mg/day depending on the age, gender, and other health conditions of a person.

You can buy ativan 2mg-tablets online easily as it is the standard and lowest dose. That's why, [Ativan 2mg online order](#) can be easily done with a prescription.

Ativan is an anxiety medication and is used widely in the US. But, do not attempt to use it without prescription. You can even buy [Ativan lorazepam 2mg online](#) or Ativan for sale. But do not buy or use it without prescription and your doctor will suggest the best dosage for you.
