

## About Us

Trees are the oxygen of the world as we all know. But they can easily become a really big problem, like when they get ill from insect, or are about to fall because of their age, or simply from natural disasters. Are you having problems with your trees, and don't know what to do? Or, maybe you just can not decide who you can trust to handle the project. Well, there is no need to worry anymore, because our team at East TN Tree Service Inc., is here to help, whenever you require tree service in Knoxville! We have been in the tree service business for many years and have gone through several different projects. Today we can provide tree removal, tree trimming, tree pruning, plant health care services, and much more! We serve in Knoxville, Maryville, Lenoir City, Oak Ridge, and the surrounding areas! If you want to learn more about our services or would like to schedule an appointment, you can reach us by calling or through the website!
