STONE CLEANING & RESTORATION SERVICES

Arizona is one of the fastest growing states in the United States and we need durable flooring to keep up with us. But we don't want to sacrifice beauty and style. With stone flooring you don't have to sacrifice anything! What could be more durable than stone? There are numerous types of stone to choose from, and each type has different properties that make it suitable for different uses.

CLEANING AND SEALING CERAMIC TILE AND GROUT

Professional cleaning and color sealing of your Mesa ceramic tile and grout can bring back its original beauty and help to keep it that way. If your grout is discolored and stained or, if you wish to change the color of your grout, it can be cleaned, colored, and sealed. A new color grout can give the appearance of a whole new floor. Furthermore, color sealing will prevent moisture, dirt and grime from being absorbed into the grout. All grout is porous and should be sealed.

CLIENT REVIEWS & TESTIMONIALS

Alex Ristuccia

100% satisfied customer, their reputation doesn't lie. Crew totally transformed our flooring and colored sealed our grout. Genuinely better than new. Highly recommend to everyone!

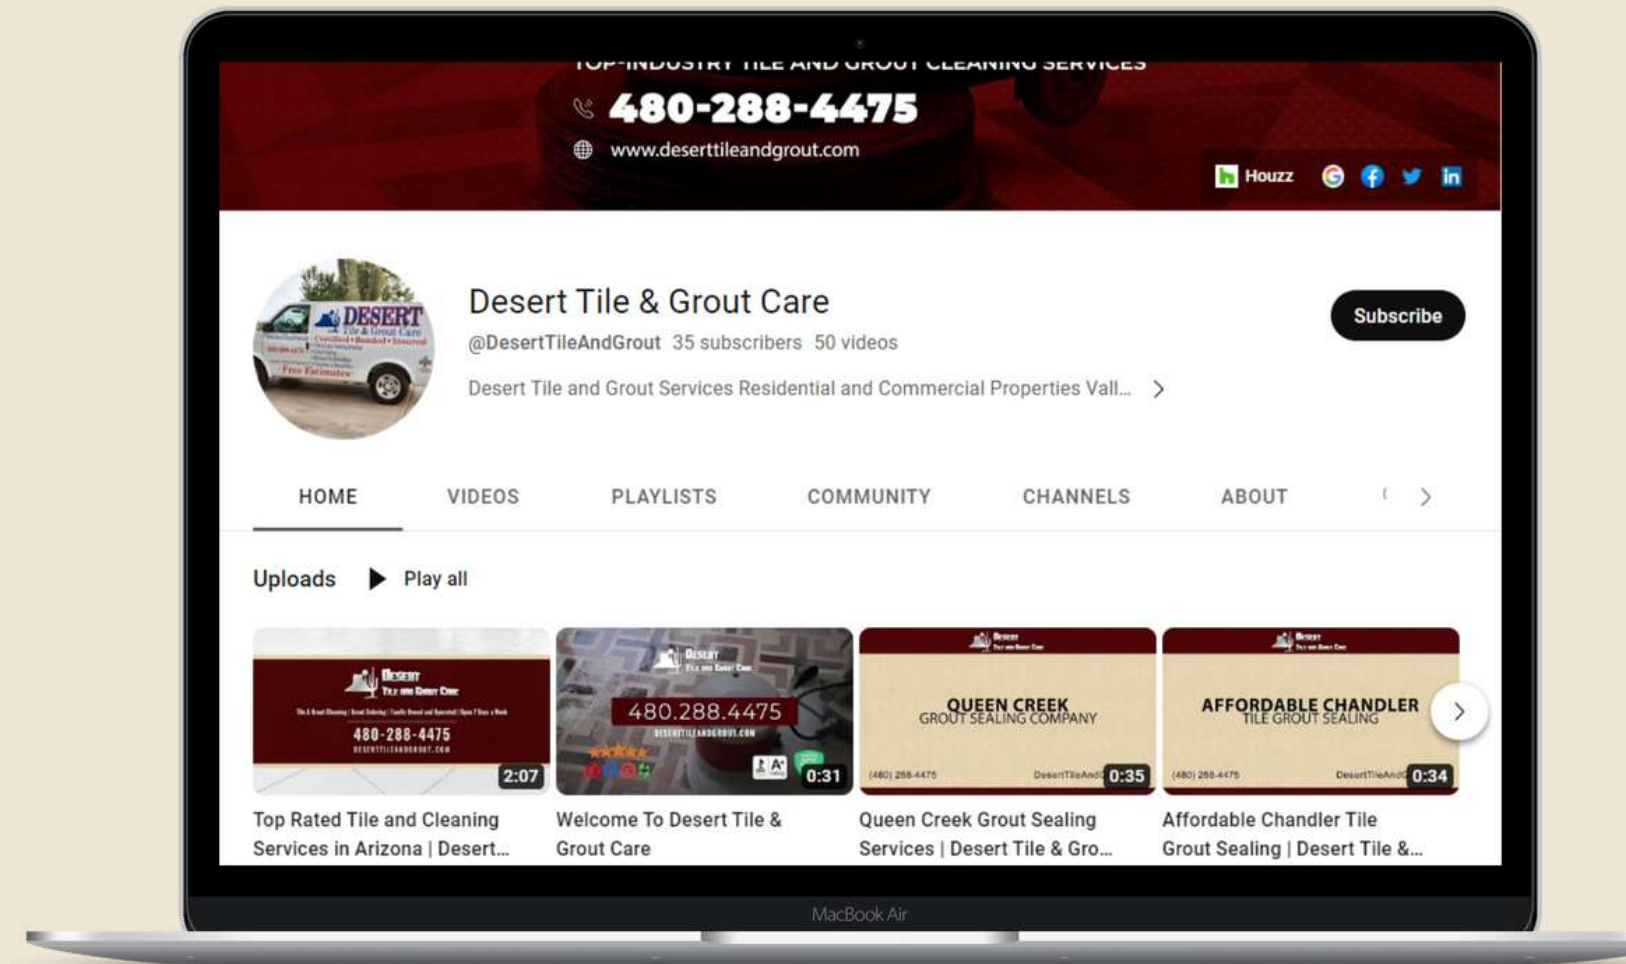

Josh Kristy Parker

Amazing crew! The owner Josh is very professional. This company did an amazing job on the color match and seal. The floors look brand new! Will recommend and use them again for sure.
